

LASH STYLING

After Care

LET THEM SET

Avoid excess heat for 24-48hrs.
Inc. Exercise, steam rooms, facials, etc.

WAIT TO ADD WATER

Avoid getting the lashes wet for 24-48hrs.

LASHES HATE OIL

Must use only water based make-up removers, cleansers and make-up. Non water based products will shorten the life span of the lashes.

WASH + BRUSH

Wash and brush lashes everyday with recommended lash cleanser and mascara wand to maintain healthy, luxurious lashes.

MASCARA NO MORE

Mascara will shorten the life of lash extensions and harden the soft, fluffy effect we wish to maintain.

CURLING IS A CRIME

Lash styling includes a heightened lash curl to all lashes, so avoid any additional curling methods after and before treatment.

RESIST TEMPTATION

Avoid rubbing, picking and pulling at all costs! This can cause unnecessary damage and your stylist has the safest removal remedy.

YOUR STYLIST IS HERE

Call your stylist if you experience any irritation, discomfort OR just to tell your stylist how much you love your lashes!

DON'T FORGET

Pre-book your next appointment to maintain perfect, luscious lashes.
