

LASH STYLING

Pre-Care

PRE-EXISTING LASHES

We know the value in lashes, so RA'RA is happy to work with pre-existing extensions. This is as long as they're maintaining care of the natural lashes. Be sure to let your stylist know if you already have lashes on. It's essential for us to know that we will be blending with another lash stylists work. We won't compromise on quality, application or safety of your natural lashes but will happily evaluate and determine if your pre-existing lashes are suitable to work with at the time of service.

PRE-CURLING

Your lash treatment will have all the curl you need. Please avoid pre-curling treatments prior to your lash appointment at RA'RA. We don't apply extensions to lashes that are freshly lifted or permed. Allow minimum 8weeks post lift before lash extension application. We ensure to maintain the health and quality of the natural lashes at all times.

PRE-PLAN

Please arrive without mascara prior to your lash application at RA'RA. Mascaras will leave a film on the lash, even after cleansing. This can risk the strong bond of extensions to your lashes. Please arrive at your appointment with eye make-up cleansed off. Avoid oils/creams/waxes and waterproof based products minimum 24hrs prior to your lash treatment for best results.

PLAN AHEAD

Cosmetic tattooing, eye surgery or trauma must be considered pre lash extension application. Allow minimum of two weeks prior and post lash treatments to uphold the safety and care of a delicate area.

KEEP US POSTED

If you are experiencing any eye irritation, inflammation, infection, redness or unusual itching before your appointment, contact your lash stylist to discuss. It may be more suitable to postpone your appointment to a later date or be aware of options to care for your eyes in the best way, pre RA'RA lashes!
